

XOOMA WORLDWIDE

The Power of X₂O

Drinking X₂O daily will complement, support and enhance everything you do.

All vitamins, supplements, juices, special dietary requirements and weight management programs really need X₂O to efficiently assimilate (to be taken up fully by your system) and to remove wastes and toxins.

With X₂O in your water, add years to your life and life to your years

Water is the Essence of Life

Life is Built on a Foundation of Hydration ...

Cellular hydration is essential for good health

Dehydration

Aging is the process of drying up from the inside - dehydration

Brad King – holds a Masters Degree in Nutrition, is a performance nutritionist, a fitness and wellness expert, member of The Canadian Sport's Hall of Fame and author of 11 books

“Thirst is the obvious sign of dehydration, but the truth is your body is in need of water long before you feel thirsty”

Dehydration

Have you heard that drinking at least 8 glasses of water a day is essential?

Blood and lungs are approx 85% water

Brain & muscle 75%

Bones 25%

Your body loses 2 – 2.5 litres of water every day through normal body functions, such as: respiration, perspiration, urination

Water is also needed for body processes such as: digestion, assimilation, circulation, elimination and temperature control

Dehydration

“Next to oxygen, water is the most essential factor for life” - *Brad King*

Then why don't the majority of people drink enough of it?

Coffee, tea, soft drinks and juices do not substitute for the recommended 8 glasses of water you need every day.

This water is in addition to any other drinks you are having each day.

Dehydration

Dehydration is a primary cause of daytime fatigue, which slows down the metabolism & impairs focus, concentration & physical performance

Many so called signs of aging may be signs and symptoms of dehydration including:

Heartburn	Headaches
Dyspepsia	Old age diabetes
Back pain	Hypertension
Constipation	Cholesterol buildup
Depression	Autoimmune diseases
Dry skin	Rheumatoid joint pain
Colitis	Tiredness
Anxiety	Asthma
Allergies	Lack of energy

Dehydration

Even when we drink enough water
we may still be
dehydrated

Regular Water
approx.
73 dynes/cm

Partial wetting

Most water has a surface tension rating of approx. 73 dynes

Human Cell
approx.
45 dynes/cm

Complete wetting

To hydrate the cells more efficiently, the surface tension of water needs to be lower - closer to 45 dynes

X₂O lowers the surface tension of the water making it more easily absorbed into the body

Hydration at the cellular level

Alkalinity, pH

Imagine your body's health is like your bank account. If you withdraw funds without replacing them, your account goes into overdraft.

Stress, the air we breath, most of the food we eat and beverages we drink, can all create an excess of acid in the body. A simple way to maintain a healthy body pH is to add X2O to your water daily.

Alkalinity, pH

You want to maintain the correct balance in your body with a blood pH of 7.365

When you consume acidic food and drinks, your body will go to great lengths to keep it in a mildly basic or alkaline state.

Your body will rob other tissues or systems, including muscles, tendons, joints and bones depleting them of essential minerals, such as calcium and magnesium. This may result in illness and degenerative diseases, like osteoarthritis, osteoporosis etc.

Did you know..

It would take 32 glasses of plain water to neutralise the acidic affect of 1 bottle of soft drink or cola.

The Solution, X₂O

Before drinking X₂O

"this photo shows just seconds after it was sampled from a finger."

30 minutes after drinking X₂O

"This photo shows half an hour after drinking 950mls water with 2 X₂O sachets"

"Human studies of red blood cells and surrounding fluids using Darkfield microscopy before and after X₂O water consumption have revealed a significant and even dramatic improvement in the health of those red blood cells and fluids. This new health status, works to deliver more oxygen to the body's trillions of cells and in the process help to maintain peak energy efficiency and overall health" - Brad King

The Solution, X₂O

Hydrating with X₂O may help to:

- **Regulate** and suppress appetite
- **Increase** metabolism
- **Release** toxic waste from cells
- **Boost** energy levels
- **Flush** away unwanted fat
- **Reduce** water retention
- **Alleviate** headaches & joint pain

Water with X₂O...
at its best - the way nature intended

The Solution, X₂O

Hydrating with X₂O may help to:

- **Rejuvenate** body & skin – anti-aging
- **Improve** muscle and joint mobility
- **Increase** your oxygen level
- **Manage** blood pressure to healthy levels
- **Neutralize** harmful acids causing illness
- **Assist** with Digestion & Acid Reflux

The Solution, X₂O

X₂O is Small & Powerful

- Put X₂O into your water, shake 15 seconds and wait 5 minutes to transform your water!
- Whatever water you are drinking – rainwater, filtered or bottled – X₂O will make it better
- Try it in your wine for better taste, treat your pet's water with X₂O and pour the sachet around your plants after you have used it.

Carry X₂O in your Wallet, Purse, Pocket or School Bag– It's a portable hydration system

The Solution, X₂O

We give sports & energy drinks

to our kids and athletes... yet these drinks are very **Acidic**

X₂O outperforms the leading sports drinks for hydration & electrolytes and neutralizes lactic acid!

X₂O compliments whatever nutrition, supplements, vitamins or juices you are taking and enhances their results

For best results, aim to use 2-3 sachets each day. Each time you refill your bottle remove the old sachet, add a new one, fill with water and shake. You have now supercharged your water

The Solution, X₂O

Aging ...

Dehydration & Acidity are major factors in aging

Aging is the process of drying up from the inside (dehydration)

Allow X₂O to defy aging naturally by assisting to **CLEANSE** and **ENERGIZE** your body for a quality and healthy life!

The Bottle

Make a Difference with Xooma

The re-usable X₂O Bottle can help avoid plastic bottle pollution

This strong, practical bottle is made from a material that does not contain BPA or Phthalates, eliminating the absorption of toxic chemicals into your water...

unlike other plastic beverage bottles

The Power of X₂O

More and more people are drinking bottled water but no matter what water you are drinking... tap, rainwater, filtered, reverse osmosis, distilled or bottled, adding an X₂O power pack transforms your water into a beneficial, fresh, pure, great tasting water.

Thank you for allowing us to share
the story of X₂O with you,
and please contact the person
who invited you to this presentation
