# MetaboWize AM Formula

## What is it and what does it do?

The MetaboWize AM Formula is a proprietary morning and/or mid afternoon metabolic, thyroid and mood support formula designed to:

- Help stimulate metabolism throughout the morning and early afternoon by enhancing production of the brain chemical, *norepinephrine* – the natural “feel good/fat loss” chemical
- Help control the satiety response in order to curb appetite and cravings
- Help support optimal thyroid function in order to ensure a healthy metabolism and mood
- Help stimulate effective *methylation* - the biochemical process imperative to good health, fat loss and healthy brain chemistry
- Help repair, renew and reactivate muscle cells to optimise metabolic function

The body is then encouraged to burn more body fat and create more energy.

## How do you use it?

The MetaboWize AM Formula is best taken as 1 capsule first thing in the morning on an empty stomach (with a full glass of X<sub>2</sub>O water) – preferably before exercise – and again in the early afternoon if needed.

# MetaboWize PM Formula

## What is it and what does it do?

The MetaboWize PM Formula is a proprietary evening stress reducing, sleep support formula designed to:

- Help maintain an optimal sleeping metabolic rate (SMR) – the ability to effectively burn calories during the sleep phase
- Help reduce excess stress hormones – primarily *cortisol*, which are often associated with a dysfunctional metabolism, poor health, obesity, interfere with a deep restorative sleep and trigger fat storage
- Help support a healthy sleep cycle conducive to optimal human growth hormone (HGH) release
- Help repair, renew and reactivate muscle cells to optimise metabolic function
- Help boost levels of the feel-good brain chemical, *serotonin*, which is necessary for effective relaxation, deep sleep, craving control and fat loss

Sleep researchers at Cornell University found that at least half of the US population is chronically sleep-deprived and at least 56% of the US population complains of day-time drowsiness. Research presented in the January 2005 edition of the Archives of Internal Medicine, shows that insufficient sleep decreases metabolism, leading to overweight and obesity.

## How do you use it?

The MetaboWize PM Formula is best taken approximately half an hour before bedtime (with a full glass of H<sub>2</sub>O water). Take 1-2 capsules.

- Help control the absorption of dietary sugars, thereby optimising insulin function and limiting fat storage
- Help insulin sensitivity in order to better regulate blood sugar levels
- Help control the satiety response between meals in order to help you feel full longer
- Help optimise glucagon production in order to allow more body fat to be burned as fuel
- Help repair, renew and reactivate muscle cells to optimise metabolic function
- Help cleanse the system and re-populate healthy gastrointestinal bacterial colonies (that aid in digestion, absorption & elimination)

## How do you use it?

The MetaboWize Shake can be consumed either as a stand-alone protein/fiber shake (mixed with X<sub>2</sub>O water – juice, or a healthy liquid of your choice) or blended with fresh or frozen fruit (preferably berries) and an essential fatty acid like flaxseed oil (preferably organic)

# MetaboWize Protein Fiber Shake

**The MetaboWize Protein Fiber Shake** is a one-of-a-kind complex derived from a unique blend of (hormone-free and anti-biotic-free) low lactose/low casein cold processed and microfiltered whey protein isolates and concentrates along with functional fibers to further curb appetite and cravings, while the other fibers work as a food source for healthy bacteria – required to maintain optimum digestion, absorption of nutrients and elimination.

This one-two punch (whey protein and functional fibers) and the unsurpassed quality of all ingredients within this proprietary formula is what truly sets the MetaboWize shake apart from the multitude of “Protein Shakes” on the market today.

# Cleanse the entire digestive system

An important part of any fat loss program is to assist the body to eliminate waste & cleanse the system.

## Nature's Body Cleanse

Toxin accumulation caused by slow bowel transit time can lead to a reduction in overall health and well-being. Nature's Body Cleanse increases the consumption of dietary fibre, which helps decrease bowel transit time by gently cleansing the intestinal tract. Nature's Body Cleanse enhances bowel ecology, regularity and promotes optimal nutrient absorption.

Enzymes are the catalyst and energy source for all life. People who have a tendency not to chew their food correctly may have digestive problems. Also, as we age we start to lose the ability to break down our foods through the digestive process.

## Assimilator

Assimilator is a potent combination of natural plant enzymes in a proprietary formulation with essential ionic trace minerals. This formula helps digest processed and cooked foods. It is designed to promote the healthy oxygen-carrying ability of red blood cells enabling better nutrient utilization, energy production, optimal cellular health & immune system competence. Assimilator promotes cellular health, enhancing the removal of unwanted waste & debris from the cellular environment, a characteristic in people with less than optimal health.

**Nature's Body Cleanse & Assimilator are the perfect solution to assist in cleansing the entire digestive system.**

# Eliminating waste & impurities

*"Of all the polite topics of conversation, the state of one's intestines is probably at the bottom of most people's lists. Let's face it: Irritable bowel syndrome, constipation, gas, diverticulitis and colon cancer are simply not things we like to discuss. And yet, as the old expression goes, death begins in the colon. Ask any coroner. Autopsies often reveal colons that are plugged up to 80 percent with waste material." - Vegetarian Times, March, 1998*

It is said that John Wayne's body contained forty pounds of faeces, Elvis Presley's body sixty pounds! The rest of us probably at least ten pounds. If you are not producing well-formed stools after each meal, you are most likely a walking vessel of faecal toxicity. **Death...or life...begins in the colon.**

## What are the results of harbouring your unwanted waste?

Constipation	Weight gain	Headaches	Stomach pain	Skin problems, Acne, Blemishes
Cancer	Hair problems	Diverticulitis	Chronic fatigue	Severe gas and bloating
Joint Pain	Acid reflux	Parasites	Irritable Bowel Syndrome	Ailments resulting in death

***"This is not a problem for me, I go regularly everyday."***  
Sound familiar? You could be dead wrong!

The National College of Chiropractic in Chicago performed autopsies on 300 bodies. According to the records, 285 of them claimed they were not constipated and had normal bowel movements. **WRONG! 95% of the bodies examined were constipated.** Some had colons up to 12 inches in diameter filled with toxic crust and toxic material! (A normal colon is just 2-3 inches in diameter.)

**Eliminated, impacted matter resulting from a colon cleanse.**

Consider everything you have ever eaten over the last few years. How about your entire life?  
**Where did it all go?** Some of all that food may still be caked on your colon's inner wall...

**Fertilizer for colon cancer.**

# Have you heard of X<sub>2</sub>O?

Essential Fuel for Your Body – Feel better, look better, live longer.

X<sub>2</sub>O is a 100% natural organic mineral complex containing electrolytes – Calcium, Magnesium, & 70+ organic trace minerals in an ionic form that your body recognises & absorbs. It has NO *sugar*, artificial colourings, sweeteners, preservatives, calories, carbohydrates, caffeine or glycemic Value (GI) & it won't raise blood sugar levels or trigger fat storage.

## Don't just count calories – Drink plenty of water (H<sub>2</sub>O)

Most weight loss programs suggest you drink plenty of water (H<sub>2</sub>O) to flush out toxins and acidic waste from your body in addition to diet and exercise

Once you understand how X<sub>2</sub>O works, you will never want to drink water without X<sub>2</sub>O in it! Add X<sub>2</sub>O to whatever water you are drinking to hydrate mineralise and alkalisise your body.

- ✓ **Hydrates** - the ultimate way to hydrate the body
- ✓ **Mineralizes** - in ionic form at the cellular level
- ✓ **Alkalizes** - balances your body's pH for optimum health
- ✓ **Rejuvenates** - your body and skin - anti-aging
- ✓ **Revitalizes** - your energy levels
- ✓ **Oxygenates** - your body's cells
- ✓ **Cleanses** - removes toxins from the body
- ✓ **Enhances** - your body's ability to assimilate and absorb nutritional/dietary supplements

Combining X<sub>2</sub>O with the MetaboWize program has a synergistic effect.....

**MetaboWize** + **X<sub>2</sub>O** = **a leaner, healthier you!**

Disclaimer: X<sub>2</sub>O is a water purification product and is not intended to treat, heal, cure, diagnose or prevent any health related condition or disease. No health claims expressed or implied are made for X<sub>2</sub>O or the water it produces. # Acid/Alkaline imbalance

**Mariana Bozesan PH.D.(c), MS, BS, BA** – Expert advice on Weight Loss and Wellbeing... *“Over-acidification of body fluid and tissues signal a state of imbalance, opening the door to sickness and disease, as well as extra body fat.”*

## The human body is very smart!

It realises that acid may be the killer and we cannot have it close to our vital organs, so in order to protect our organs, the body may create fat cells to store the acid.

The more acidic our bodies get the wider and heavier they can become. This is a survival mechanism when our bodies are acidic. This is also a reason why the body doesn't want to let go of the fat.

## Acid in our bodies may:

➤ Eat away at the organs	➤ Reduce the oxygen	➤ Deplete calcium from our teeth & bones
➤ Cause cells to mutate	➤ Cause plaque in the arteries	➤ And so on.....

## Remove the acid from our bodies and these fat cells may leave and not come back! Some Diseases linked to excess body fat are:

- |  |  |

| <ul style="list-style-type: none"> <li>➤ Insulin resistance</li> <li>➤ High blood pressure</li> <li>➤ Atherosclerosis</li> <li>➤ Cardiovascular disease</li> <li>➤ Stroke</li> <li>➤ Particular cancers such as breast, endometrial and colon</li> <li>➤ Type 2 diabetes (non-insulin dependent diabetes mellitus)</li> <li>➤ Dyslipidemia (high total cholesterol or high levels of triglyceride)</li> <li>➤ Musculoskeletal problems such as osteoarthritis and back pain</li> </ul> | <ul style="list-style-type: none"> <li>➤ Gall bladder disease</li> <li>➤ Polycystic ovarian syndrome</li> <li>➤ Gout</li> <li>➤ Cataracts</li> <li>➤ Stress incontinence</li> <li>➤ Sleep apnoea</li> <li>➤ Respiratory problems</li> <li>➤ Hypertension</li> <li>➤ &amp; more...</li> </ul> |

# X<sub>2</sub>O alkalises – pH 9.5-10.5

**A simple way to maintain a healthy body pH is...  
to add X<sub>2</sub>O to your water everyday**

Imagine your body's health account is like your bank account. If you withdraw funds without replacing them, your account goes into overdraft. Stress, the air we breath, most of the food we eat and beverages we drink, can all create an excess of acid in the body - these are all withdrawals from our body's health account.

**Brad King says,** "In my 10 years of working in fat loss research, I have never experienced the type of results we are achieving with Metabowise. One of the biggest factors in these results is the synergistic effect of combining the Metabowise system with the X<sub>2</sub>O water, which assists the body to release the toxins and let go of the fat. The Metabowise system is working with the body's natural biological clock to boost the metabolism & feed the body the correct proportion of nutrients."
